```
Exercice 1
                2 points
     a = 2
     b = 5
     temp = a
     a = b
     b = temp
ou
     a = 2
     b = 5
     a, b = b, a
Exercice 2
            3 points
     for lettre in "lundi":
        print("lettre")
Exercice 3
                3 points
     for k in range(2024):
        print("NSI")
Exercice 4
                2 points
     0
     ok
     1
     ok
Exercice 5
              \it 3~points
     lettres = ['s', 'e', 'p', 't', 'e', 'm', 'b', 'r', 'e']
     chaine = ""
     for lettre in lettres:
         chaine += lettre
     print(chaine)
Exercice 6
               \it 3~points
     for jour in ["lundi", "mardi", "jeudi"]:
        print("je vais au lycée le", jour)
Exercice 7
             4 points
     somme = 0
```

for k in range(101):

somme += k
